Note: User's Manual is Just to guide the user about the functionality of the phone. This dose not seems any certificate of technology. Some functions may very due to modifications and up gradations of software or due to print mistake.

SAFETY PRECAUTIONS

Before using your phone, please read the following important information to eliminate or reduce any possibility of causing damage and personal injury.

	Do not use wireless phones while driving.
	Switch off wireless devices in aircraft. The signal may cause interference. Using them on aircraft is illegal.
	Do not use mobile phones where blasting is in progress. Follow regulations and rules strictly.
	Do not use mobile phones at a refueling point. Don't use near fuel or chemicals
	Follow regulations or rules in hospital and health care facilities. Switch phone off near medical equipment.
	All wireless devices may get interference that could affect performance.
	Only qualified service personnel can install or repair this device.
	Use only approved accessories and batteries.
	Use only in normal position. Do not expose your phone to extreme high temperatures above +60℃(+140°F) . Do not use anything static to clean your phone.
	Ensure the phone is turned on and in service. Enter the emergency number, then press Pick Up key. Give your location. Do not end the call until told to do so.

Improper use will invalidate the warranty! These safety instructions also apply to original accessories.

GENERAL INFORMATION

Antenna

Use of other antenna devices could damage your mobile phone and reduce performance. Your phone has a built-in antenna. Don't touch the antenna area unnecessarily when the phone is switched on. Contact with the antenna affects call quality and may cause the phone to operate at a higher power level than otherwise needed.

Network Service

A lot of features described in this manual are called network service. They are special services provided by wireless service providers. You should subscribe to these services from your home service provider and learn instructions on uses before you select the network you want to use.

Accessories

Li-Ion battery is the manufacturer-approved rechargeable battery available for your phone. May be some batteries performs best after several full charge/discharge cycles.

Use only batteries, chargers and accessories approved by the phone manufacturer for use with this particular model. The use of any other types will invalidate any approval or warranty applying to the phone, and may be dangerous.

Please consult with your dealer for availability of approved accessories.

Privacy

The shoot or recording of photos, images or sounds privately may be prohibited by law and/or subject to criminal prosecution. We recommend you to be responsible and respectful of privacy laws when you are taking photos, or doing records.

IMPORTANT INFORMATION

Use of Passwords

Your mobile phone and SIM card have various passwords. Those passwords avoid unauthorized use of your phone and SIM card. You can change PIN, PIN2 and phone password in the “Settings > Security Setup”

Phone Code

The Phone code can be used to avoid unauthorized use of your phone. The factory setting for the phone code is 0000. If phone lock is enabled, you will be asked to input the phone password when you switch on your phone.

PIN (4 to 8 digits)

The PIN (Personal Identification Number) code protects your SIM card from unauthorized use. The PIN code is usually supplied with the SIM card. When the PIN code request is enabled, the password is asked every time the phone is turned on.

Three times wrong PIN input, the SIM card will be locked and you will need to use the PUK to unlock it. PUK is usually set by the network operator.

1. Enter the correct PUK to unlock the SIM card, and then enter the new PIN and press **OK**.
2. If you are prompted to enter the new PIN again, enter it and press **OK**.
3. If the PUK is correct, the SIM card will be unlocked and the PIN will be reset.

PUK (8 digits)

The PUK (Personal Unblocking Key) code is required to change a blocked PIN code. Please contact your network operator for the code.

Note: Ten times wrong input in succession, the SIM card will be invalid and you need to consult with your network operator for a new SIM card.

PIN2 (4 to 8 digits)

The PIN2 code, supplied with some SIM card, is used for some functions, such as Call Cost, Fixed Dial and so on. Please consult your network operator to confirm whether your SIM card supports those services or not.

Three times wrong PIN2 code input, the SIM card will be locked and you will need to use the PUK2 to unlock it.

1. Enter the correct PUK2 to unlock PIN2, and then enter the new PIN2 and press **OK**.
2. If you are prompted to enter the new PIN2 again, enter it and press **OK**.

PUK2 (8 digits)

The PUK2 code, supplied with some SIM card, is required to change a blocked PIN2 code. It may be supplied with the SIM card. If not, contact your network operator.

Note: Ten times wrong input in succession, the SIM card will be invalid and you need to consult with your network operator for a new SIM card.

Barring Code

To activate call barring, you need a Barring Code. You obtain the password from your service provider.

Battery Information

Charing and Discharging

- The charger is designed to be used in temperatures between 0°C to 40°C.
- Do not charge the phone in wet and damp conditions.
- Use only batteries approved by the phone manufacturer and recharge your battery only with the charges approved by the manufacturer.
- We strive to produce products in compliance with global environmental standards
- The charger meets the standard for safety of information technology equipment and office equipment use. It must be used for this purpose only.
- Your phone is powered by a rechargeable battery. Full performance of the battery is achieved only after two or three complete charge and discharge cycles.
- When the battery level is low, “Low Battery” will be displayed on the LCD screen. If you have selected Alert Tone (Warning Tone of any profile in Profiles), the phone will sound the alert tone.
- When a charger is not in use, disconnect it from the power source. Do not leave the battery connected to a charger for longer than 12 hours, since overcharging may shorten its life.
- Temperature extremes will affect the ability of your battery to charge.

Tips for Battery

- Placing the battery in hot or cold places, such as in a closed car in summer or winter, will reduce the capacity and lifetime of the battery.
- Do not let the metal contacts on the battery touch other metal contacts. It could short-circuit and damage the battery. Use the battery only for its intended purpose.
- Do not disassemble or modify the battery by yourself.
- Do not clean the battery with water or any organic solvent.
- Always keep the battery dry.

- The battery can be charged and discharged many times but it will wear out as last. When the talk and standby time is obviously shorter than normal, please change the original battery approved by manufacturer.
- Do not short-circuit the battery.
- Turn off mobile phone before removing the battery.
- Do not dispose of batteries in fire.
- If you smell anything strange from the battery or find that the battery is overheated, you should stop using it immediately and contact the authorized After Service Center in your region.
- If you don't use the battery for a long time, please fully charge the battery before you store it.
- Batteries should never be placed in municipal waste. Batteries must be recycled or disposed of properly. Please follow local regulations for disposal of batteries.

Usage & Maintenance

To keep your product working well, take a moment to review the following usage & maintenance tips, which will help you to fulfill any warranty obligations and to enjoy this product for many years.

- Keep your phone and all its parts and accessories out of children's reach.
- Your products are not water-resistant. Keep it dry. Precipitation, humidity and liquids contain minerals that will corrode the connectors.
- Always treat your products with care and keep it in a clean and dust-free place.
- Do not expose your product to extreme high or low temperatures. Your phone operates best in temperature between 15 °C and 25°C. Minimum and maximum temperatures recommended by the manufacturer are -10°C and 55°C.
- Do not expose your product to open flames or lit tobacco products.
- Do not attempt to disassemble or modify your product. Only authorized personnel should perform service.
- Do not drop, throw or try to bend your product.
- Do not paint your product.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean it.
- Keep anything magnetic, such as credit cards, far away from your product.
- If you find that the battery has any crack, deformation or anything else, you should stop using the battery immediately.
- If the electrolyte leak out and contact your skin or clothes, you should immediately use soap and clean water to clean it. In case the

electrolyte spatters into your eyes, you must use the clean water to wash your eyes thoroughly and go to the hospital immediately.

- If your phone or any accessory doesn't function normally, please send them to the nearest authorized service facility. The qualified personnel there will assist you, and if necessary, arrange for service.

Emergency Calls

This phone, like any wireless phones, operates using radio signals, wireless and landline networks which cannot guarantee connection in all conditions. Therefore, you should never rely solely upon any wireless phone for essential communications (e.g. medical emergencies). To make an emergency call:

1> Switch your phone on.

Some networks may require that a valid SIM card is properly inserted in the phone.

2> Dial the official emergency number. Emergency numbers vary by location.

While making an emergency call, please remember to give all information as particularly as possible. Never hand off the call please until you are given permission to do so.

GETTING STARTED

First Call

- Insert a SIM card (Switch off your phone at first, and then remove the battery). Enter the area code and the phone number and press Pick Up Key.

Tip: Before you get started, you must insert a valid SIM card in your phone and charge the battery first.

- SIM Card: Please refer to “Mounting the SIM Card” for more reference on installation.
- Charging the battery: please refer to “Charging the battery” for more details.

Mounting the SIM Card

Your mobile phone number, PIN (Personal Identification Number), PIN2, PUK (Personal Unlock Key), PUK2 (Personal Unlock Key2), IMSI (International Mobile Subscriber Identity), the network information, the phonebook data, SMS (short messages) and other data are stored in your SIM card.

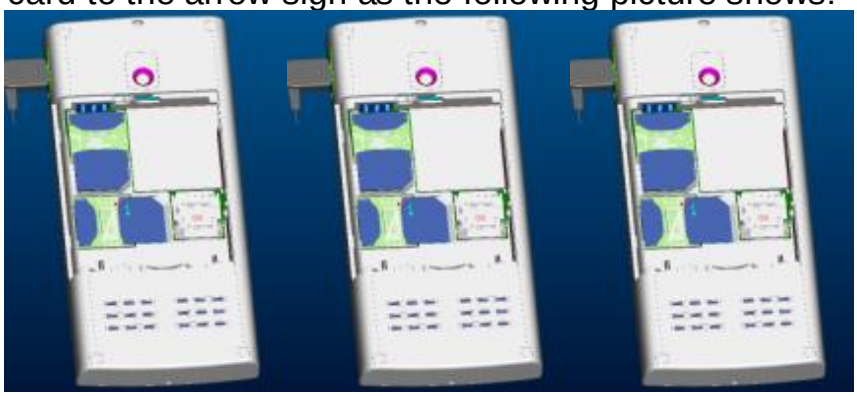
Note: This particular phone model only supports the SIM cards of 1.8V and 3V.

- Some network operators don’t offer PIN2 and PUK2, so functions using those passwords will be unavailable.
- The SIM card and its contacts can be damaged by scratches or bending easily, so be careful while handling, inserting or removing the card.
- Keep all miniature SIM cards out of children’s reach.

Note: Always make sure the phone is switched off before you insert or remove the SIM card, otherwise it may damage the SIM card.

Mounting

Remove the battery cover by sliding it. Insert the SIM card, with the notch at the bottom right and the gold contacts face down, into the card slot. Align the card to the arrow sign as the following picture shows:



Replace the battery and close the cover tightly.

Note:

- If the SIM Card is installed improperly or damaged, the prompt words “Insert SIM” will display on the screen after you switch on your phone. Remove the SIM Card and check the way that performs as pictures show, and then mount it again.
- If “Insert SIM” still appears on the screen after you have inserted the SIM correctly, there may be something wrong with your SIM card. Please ask the network operator to repair it.
- If the screen displays that the SIM card is locked permanently, please consult with your network operator.

Mounting the T-Flash Card

Insert the T-Flash card, with the gold contacts face down, and into the card slot. Align the card to the arrow sign as the following picture shows:

Charging the Battery

Note: Please always keep your phone connector and charger dry.

1. Connect the connector of the travel adapter to the phone.
2. Plug the travel adapter into a proper AC wall outlet.
3. When your phone indicates that the battery is fully charged, please pull the ravel adapter out from the I/O socket of the phone.

Tip:

1. If the battery is totally empty or not enough, it may take a few minutes before the charging indicator appears on the screen.
2. You can turn on/off, and use the phone while charging.

Warning: Make sure that the standard voltage/power of the place where you charge the battery matches with the rated voltage/power of our travel adapter.

Switching Your Phone On/Off

- Press and hold Power Key for a few seconds to switch your phone on.
- **If the phone ask for a phone lock code:**

Enter the phone lock code, and press OK.

- **If the phone ask for a PIN code:**

Enter the PIN code, and press OK. The PIN code is usually supplied with the SIM card. Please consult your network operator for more information.

- **Access the standby mode.**

Press and hold Power Key for a few seconds to switch your phone off.

Waken Up Your Phone

- **If your phone gets into far-gone standby mode (the screen goes out):**

Press Power Key and then you can waken up your phone.

- **If your phone ask for "Press Unlock and then space key":**

Enter the SIM2 Pick up key and then press the space key.

CALLING

Making Calls

1. Enter the phone number (with the area code)
2. Press the SIM1/SIM2 Pick Up Key to make a call.
3. Press the Hang Up Key to end a call.

Making International Calls

1. Press the + Key for the international prefix symbol **+**.
2. Enter the country code, area code and phone number.
3. Press the Pick Up Key to make a call.

Clear Wrong Enters

Press the right soft key to delete the last character on the screen. Hold the right soft key will clear all you entered.

Making a call from the Phone Book

1. Press the right soft key to access the **Phone Book**.
2. Scroll the Up/Down key to select the number you want, and press the Pick Up Key to call the number.

Last Number Redial

1. In the standby mode, press the Pick Up Key to access the **Call Logs**.
2. Press the Up/Down key to reach the desired number or name and press the Pick Up Key.

Speed Dialing

You can save 8 Speed Dial Numbers you often dial to positions titled with number keys from "2" to "9" respectively. Select "**Phonebook > Options > Phonebook settings > Speed dial > Set Number**", and then set "**Status**" on. In the standby mode, press and hold the number key to dial the corresponding number.

Adjusting the Sound Volume

During a call, you can press the up/down navigation Keys to adjust the earpiece volume.

Answering Calls

1. To answer an incoming call, press the Pick Up Keys.
2. To end or reject an incoming/ongoing call, press the Hang Up Key.

Tip: If the caller can be identified, the screen will display the caller's name. If the caller can't be identified, the screen will only display the caller's number.

Options in Call

Your phone provides a number of functions that you can use during a call. During a call, you can access Hold/End single call, New Call, Phone Book, Messages, Sound Recorder and other functions.

GUIDE TO MENU OPERATIONS

All function options about the mobile phone are listed as below with brief descriptions. Press the LSK or center key to enter to Main Menu.

Phone Book

You can fast locate the number of the person you want to contact. Please enter the initial letter of the person's name, and related records about it will display in the middle of the screen. You can locate your records by up or down key and press OK key.

Options for Searched number are:

1. View: Check the details of entry.
2. Send text message: Send the text message to the searched number.
3. Send multimedia message: Send MMS to the searched number.
4. Call: Call on the searched number.
5. Edit: Edit the entry.
6. Delete: Delete the entry.
7. Copy: Copy the entry to phone memory, SIM memory or to a file.
8. Move: Move the entry from phone to SIM or vice-versa.
9. Send contact: Send contact as text message, as MMS, via Bluetooth.
10. Add to Blacklist: Add the entry to blacklist.

3. Add to Ringtones: You can use MP3 music as the ring tone for incoming calls.
4. Refresh List: You can refresh the music file list of the memory card.
5. Settings:

- Pre. Play list: You can choose the Mp3 files in the Phone or in the memory card.
- List Auto Gen.: On/Off, play the music saved in system/select music files from the File Manager to play.
- Repeat: You can select Off, One or All.
- Shuffle: You can select On/Off.
- Background Play: On, the music will continue to play even if you exit the Playing Screen (music will stop when a call is coming).
Bluetooth settings
There are two sub options here.
- BT stereo output > you can select On/Off.
- BT stereo headset > Insert the earphone and access the Headset mode automatically.
Audio effect: User can change the equalizer effects to different modes while playing audio player in headset mode.

Note: Press the volume keys (* and #) to adjust the volume. Make sure that the volume is appropriate for your hearing while using the audio player. To enjoy non-stop music, please download music to the “My Music” folder of phone’s internal memory recognized as a USB disk on your PC. The Audio Player of the phone will automatically play music files from the “My Music” folder. You may need to refresh it manually from the settings in case you have earlier selected manual refresh settings.

Sound Recorder

The mobile phone supports 2 recording formats: WAV and AMR. You can record conversations, which may be saved to the Audio folder under Phone/ File Manager. If there is a record, press the left soft key you can select: Record, Play, Append (only for AMR), Rename, Delete, Delete All, Setting, Use, and so on.

FM Radio

You can use your phone to listen to FM radio stations once the original Handset is plugged into the connector or antenna is opened.

1. Press the Down key to Power on/ off the FM radio.
2. Press the OK key to record the FM.
3. Press the Left/Right key to change the searching function of step to next frequency.
4. Press the */ # key to adjust radio volume.
5. Press Options to access the following options: channel list, manual input, Auto search, Settings, Record, Append, File list.

Schedule FM Record

With this function, your phone can record the FM program as the schedules once the original Headset is plugged into the accessories connector. You can set Off or On, the date and time, repeat style, channel settings and record settings.

Fun & Games

There are several interesting game and java application in the phone. Please refer to instructions from the menu for more details.

Tip: The game menu includes Start Game, Game Level, Best Grades and Game Help.

Opera Mini

Opera Mini is a web browser designed primarily for mobile phones to open big memory size websites.

Lemon Twist:

Lemon Twist includes various features like Atom, Facebook, Twitter, Buzzintown, Nimbuzz, Yahoo.

Note: GPRS should be activated from the operator side and also in the SIM Card.

Email

This E-mail function can receive and send emails supported only Outlook Email server. Please read the following related information carefully before you use the function:

Email: Please log on some Internet web to apply an email account. That email account is just the "Email" referred in your manual. It belongs to the email server computer system provided from the network operator. Emails you received and sent are transferred by that email server.

Email Server: is a computer that supplies the email service from the network operator. Please consult your network operator to obtain the server name. POP3 and IMAP are common use servers in our life:

1. POP3: is a client/server protocol in which e-mail is received and held for you by your Internet server. Once you connect the web and enable the email, your phone will automatically download the new email from POP3 email server to the phone's inbox, and then delete those emails from the server. If you want to save those emails, please select the "Leave a copy of messages on server" option in "Email Setting".
2. IMAP: (Internet Message Access Protocol) is a standard protocol for accessing e-mail from your local server. IMAP provides the user more capabilities for retaining e-mail on the server and for organizing it in folders on the server. IMAP can be thought of as a remote file server.

   Note: Please consult your network operator to ensure which type your email is.

User Name: The name you enter when you applied the email account. When you log on the email, the server should verify your identity.

Password: The code you enter when you applied the email account. The email server will verify whether you are the only user for the email account or not according to the user name and password you input.

Email Address: This is the address used in Internet. According to the address, people send emails to your mailbox. The address is assigned by the system when you apply the email, so you can't modify the address.

Send and Receive

You can read sent and received emails.

Write Email

- **To:** edit the receiver E-mail address.
- **CC:** edit others E-mail address which used to send the E-mail to others at the same time.

- **BCC:** edit others E-mail address which used to send the E-mail to others secretly at the same time.
- **Subject:** edit the Subject of the E-mail.
- **Attachment:** attach 3 files saved in the phone. The default mail size is up to 90K.
- **Priority:** you can select Normal, Low or High.
- **Content:** enter the text and press “Ctrl” Key to switch input methods.

  When you select **Done**, you can do the following operations:
  - Send: to send the email.
  - Send and Save: to save the email to Sent and send it out.
  - Save to Drafts: to save the email to Drafts without sending it out
  - Quit without Saving: to exit the Email Option without saving the email.

Inbox

All received emails display in the inbox, and the icon means the email is unread. Use the Down/ Up key to scroll the cursor to check the list, and the subject and time will display. If the email has been read, the icon will change to the read icon. Please press the left soft key to access **Option**, and follow steps described as below:

- **Reply:** to reply the sender.
- **Reply to all:** to reply all senders.
- **Forward:** to forward this email to others.
- **Delete:** to delete this email.

Outbox

In the Outbox, Select Options, and then you can View or select other operations.

Sent

After the email is sent out successfully, you will be asked to save the email into the Sent or not. Please refer to the Unsent for more details.

Drafts
